now

- EURACT should focus on improving GP-training and education in Europe – and the main focus should be on helping CM and also not be on our members only
 - EURACT as a “political think tank”.
- Further development of this idea is crucial key-point for the EURACT future.
- To think in large, we’d need a critical mass people
-
- EURACT becomes the "Educational Committee for Family Medicine in Europe".
 - EURACT needs to use in some way its legal body status to keep this.
